September 19, 2006

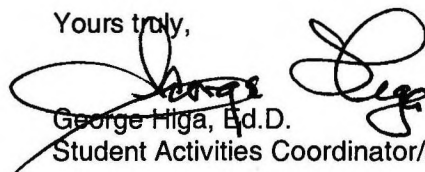

Mr. Toru Hamayasu, Chief Engineer  
City Transportation Services Department  
650 South King Street  
Honolulu, HI 96813

Dear Mr. Hamayasu:

Enclosed is your KCC visitor parking pass and campus map. The two recommended parking areas are highlighted in yellow marker pen for your convenience. If you park in the Ohia building parking area, please park diagonally (45-degree angle to the curbing) which enables more cars to be park in this area. Place your enclosed KCC parking pass on your driver side dashboard. I will meet you in our Ohia 118 auditorium. I strongly recommend that, since you are using a PowerPoint presentation, that you arrive no later than 10:30am and setup your laptop to our KCC PowerPoint LCD projection machine for proper setup and testing before the 11:0am start-time of our mass transit forum.

Please feel free to contact me if you have any questions. See you next week Wednesday (09-27-2006)!

Yours truly,

  
George Higa, Ed.D.  
Student Activities Coordinator/Advisor
